NEW PRODUCT RELEASE

Electrotech Direct now offers cost effective and reliable DIN rail mounted single and 3 phase switching power supplies for use in industrial electrical control panels. A variety of wattages are available (20W – 960W). Prices start at \$25.00. Power supply outputs are 5 VDC, 12VDC, or 24VDC and have short circuit and overload protection. ElectroTech features a line of *Intelligent Power Supplies* that have a **digital status display** that shows output voltage, output current, peak current, temperature, and running hours. Supplies are UL and CE approved and come with a 2 year warranty.
